| September 20 | Undergrad tailgate for Iowa game |
| October 4 | Golf Outing at Meadowink Golf Course |
| October 25 | Homecoming – Rutgers |
| February 28 | 75 th Founder's Day |

The Steel City Alumni Association is pleased to provide the first newsletter in many years. The Association had been inactive until last summer when Cris Hoel contacted a small number of local alumni. Under his guidance, that group elected officers and worked to re-establish the Association. The group began conducting monthly meetings in conjunction with the Housing Corporation, collecting alumni dues, organizing alumni events, establishing alumni communications and providing undergraduate support. Last September the annual golf outing was renewed, a successful Founder's day was held in April and the Association's charter was reinstated with Nationals.

In the past year the Association has made some progress, but there is still much work to be done. This newsletter is the first step in reaching out to the many alumni of Gamma Sigma to improve and build the Association into the strong organization it was in years past. There are many events in the upcoming year and some in the next couple of months where your participation and support are needed! We are also conducting an intensive membership drive to update alumni contact information and to collect a nominal annual membership fee of \$25 in order to maintain the solvency of the Association.

The upcoming events are the *The Gala at the Cathedral Lawn* on September 14th and the annual golf outing on October 4th at the Meadowink Golf Course. *The Gala* is a charity event being hosted by the university's radio station WPTS and organized by the undergrads of Gamma Sigma and the Phi Delta Theta fraternity to benefit the University of Pittsburgh Cancer Institute. *The Gala* will feature contests in croquet, bocce, and badminton with refreshments and musical performances by many Pitt student groups. Following the event alumni and undergrads will gather at the chapter house to watch the Steelers pound Cleveland at TIME on the Chapter's new 52" projection TV. The golf outing is an event for alumni and undergrads of all golf proficiency (semi-pros, hackers, beginners, worm-burners and club throwers) to enjoy a day of golf.

Information and registration forms for both events and the Steel City Alumni Association membership form are included.

Elections were conducted in July for the Steel City Alumni Association. Following are the officers for the next year. Please do not hesitate to contact any of the officers if you have any questions.
