Thanks to all of you who attended the Founders Day in February to celebrate 75 years of Gamma Sigma. It was huge success and George Miller brought down the house with his concluding remarks.

If you haven't looked at the summer issue of the Shield and Diamond yet, check out page 35. A short article on our Founders Day celebration was printed under the Alumni Association News for the Steel City Alumni Association.

Speaking of communications, the Steel City Alumni Association website, www.pittpika.com, is operational again, so go check it out. We are starting off with limited content, but plan on expanding its functionality as soon as we can. In the future, all of our communications will come from this site. A big thanks to Perry Servedio for developing the site.

There is a big weekend planned in September. First will be the annual golf outing on Saturday, September 12th at the Birdsfoot Golf Club in Freeport (see the included flyer). The golf outing is always a good time for alumni and undergrads featuring lost golf balls, beers and good stories. Come out if you can make it and drag a brother with you. The woods and the water are waiting!

Then on Sunday, September 13th, the undergrads are doing a repeat of the *The Gala at the Cathedral Lawn*. *The Gala* is a charity event organized by the undergrads of Gamma Sigma and the Phi Delta Theta fraternity to benefit the University of Pittsburgh Cancer Institute. *The Gala* will feature contests in croquet, bocce, and badminton with refreshments and musical performances by many Pitt student groups.

With the fall approaching, it's time for the annual dues of \$25. A huge thank you to everybody who contributed last year, but the Association still needs your financial support to keep moving forward. Please return the enclosed membership form to Doug Wolfe.

The Association needs more than just your financial support. If you are interested in becoming involved please contact one of the officers, even if you do not live in the Pittsburgh area. To make the Association successful we need involvement from as many people as possible.
